| heretofore granted under Permit 18024, Certificate 5604 is issued subject to the terms and conditions imposed in said Permit 18024, Certificate 5604 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. This temporary permit is issued under the provisions of NRS 534.120(2) as a preferred use. The total combined duty of water under Permits 24895, Certificate 8125 and 57802-T shall not exceed 3.285 million gallons annually. This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on June 30, 1993 at which time all rights herein granted shall revert to the right being changed by this temporary permit. |
| The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to |
| exceed 0.016 cubic feet per second , but not to exceed 1.095 |
| million gallons annually. |
| Work must be prosecuted with reasonable diligence and be completed on or before |
